GREENLEE®

THE INDUSTRY LEADER

Over 90 Years Strong

BUILDING AMERICA
SINCE 1862

Since the day we invented the knockout in 1928, we've made it our mission to build for the world's expert tradespeople. For decades, our manufacturing plant in Rockford, IL has been building the widest range of high-quality hole-making products for trade professionals. Greenlee knockouts are known as industry-leading products that allow professionals like you to complete any job more quickly and reliably. As the industry evolves and technology advances, we continue our 90-year legacy of providing optimal knockout solutions.

NEXT GENERATION OF KNOCKOUTS

- Punch up to 10-gauge mild steel or 12-gauge stainless steel. Also punches aluminum, brass, copper fiberglass and plastics.
- Slug-Buster® punch profile splits slugs for easy slug removal
- Knurled edge on punches for better grip
- New die design optimized for widest range of materials and drivers
- Taller die–no spacers required
- Laser marking for quick part identification
- Die alignment markings for improved punching accuracy

- Easy threading – draw studs with "dog-point" tip helps eliminate cross threading. Hex key access for easy removal from tool
- No sleeves required

Interested in using your existing Greenlee knockout driver with the new knockouts? Upgrade your knockouts and case to fit your driver.
